TOWN STREET LIGHT RESTORED

The **Town of Lauderdale-By-The-Sea** restored the final stretch of malfunctioning street lights this week along Commercial Boulevard.

The Town has been working to repair street lights since Nov. 30, when a Florida Power & Light subcontractor damaged a key electrical line that runs under North Ocean Drive just north of Commercial.

Street lights along Ocean Drive north and south of Commercial were also impacted, but those were restored to full working order earlier.

For more info, call Public Works Director **Don Prince** at **954-275-0908**.
